"Our Senior Year - like a diamond; sparkling, glittering, and precious" is the theme we have chosen for our "REGENT".

Throughout this year we have tried to captivate memories so that they will always be a part of us. It is not today that you will appreciate the "REGENT", but tomorrow and tomorrow.

We the annual staff, are proud to present to you our finished pride and joy - the 1966 "REGENT".

## Dedication

We happily dedicate the 1966 REGENT to Mrs. Margaret LeMieux who is truly the brightest facet in this, our DIAMOND YEAR.

Mrs. LeMieux has contributed much to the happiness, well-being, and welfare of our student body in her position as nurse - teacher for the past 15 years. Mrs. Lemieux, a native New Yorker came to St. Regis Falls in 1936. Residents of our small village have noticed with great admiration how she has turned her home into the beautiful structure it is today. Mrs. Lemieux has many hobbies, her favorite being gardening. Mrs. LeMieux through personal counseling has inspired many to further their education.

It has been a privilege and pleasure to have known you, Mrs. LeMieux, and we wish you many years of continued success and happiness.

# Science Department

This year the Science Department, headed by Mrs. Diane Dexter and Mr. Bruce Jackson, is proud of its students and their interest in science. Two outstanding events of the year are the formation of two science clubs and a school fair. The two science clubs are divided into junior and senior divisions. They were formed to promote a better insight into the study of science and are open to anyone with an interest in the subject. The science fair is on the agenda for the spring. Parents are welcome to come to see the outstanding exhibitions of reports, projects, models, and experiments. The fair, opened to all grade levels, will be judged by various faculty members using such criteria as originality, neatness, age, and purpose on which to base the decisions for awards.

The equipment in the science department is gradually increasing, making it possible to do more experiments. Highlights from the classes include: Chemistry: very interesting and still no explosions yet, Biology: dissections of such animals as the earthworm, crayfish, giant grasshopper, and frog. General Science: concentration primarily on mechanical experiments, Earth Science: local field trips to study interesting geological formations.

Norma says

No special place  
No special time

Dear Senior Class of the present year,

While walking down a deserted road a few days ago, I suddenly came upon a wishing well nestled in a clump of trees not far from the road. As I approached the well, I dug way down into my pocket and came up with four pennies; it wasn't much but I thought I'd give it a try; I wouldn't be losing much anyway. I threw the pennies into the well and tried to decide what I would most like to see, and without much debate I decided it would be my four high school years at S.R.F. So I closed my eyes and said, "I cast four pennies into thee, as your duty let me see, the Class of '66's four last years at S.R.F."

I recognized a picture forming on the top of the water. It resembled a school record dated September 4, 1962. Low and behold, it was my Freshman class. I scanned the names and found that there had been 48 in the class. I saw beside the names; Jimmy Saunders, President; Carol Pondysh, Vice-President; and Donna Arcadi, Secretary and Treasurer; and Mr. John Wever, adviser. At the bottom of the page was a place for a summary of the year's events. Here, I found that we had survived the Freshman Initiation successfully. In the far right hand corner the secretary had written, "We lost five from this year's Freshman class, Mr. Wagar, I hope we don't lose anymore."

Then quickly the Freshman record vanished and as quickly as it went, the Sophomore record appeared in its place. This one was dated Sept. 5, 1963. And sure enough, the note on the previous record had been correct because the total enrollment of this class was 43. The class officers had been Donna Cummings, President; James Saunders, Vice-President; Carol Pondysh, Secretary; and Susan Goodrow, Treasurer. Mrs. Nelda Smith and Mr. Benjamin Friedman were our advisors. The summary was one short sentence, "Adjusting nicely to high school life."

Then appeared the 1963-64 record stating an enrollment of 38, somewhere along the line we had lost another five. James Saunders had been our President that year with Carol Pondysh, Vice-President; Susan Dewey, Secretary; and Veronica Wait, Treasurer. The summary included the Beatnik Hop that netted about \$95, wreath making, selling Christmas novelties, and waiting on table for the Fish and Game Club Banquet. Mrs. Dorothy Mendelsohn was our advisor.

Then came along the '65 and '66 report with a big star in the corner. This was it, the Big Year, the big year with the small enrollment of 33. Another seven had left that grasping hand that still tried to hold the remaining 33 of us together. Four more class officers were written on this last very important page. Roger Ploof, President; Kervin Cox, Vice-President; Susan Dewey, Secretary; and Darlene Richards, Treasurer. The summary on this page was long, it included the magazine campaign reaching over its goal of \$1000.00, the Senior plays with an \$85 profit, followed by the Senior Carnival netting approximately \$300. Then came our memorable buffet supper, talent show, and the reaching of one of our goals, our Senior trip to New York City. Four years of work had brought us to this part of our lives, one part we know we will never forget. Mrs. Nelda Smith guided us this year.

Then came that day in June, that day that we had been working for, for 12 years. Was it worth it? Yes, but you will never know until you yourself have experienced it. At the bottom of the page was written, "Well, Mr. Sharpstene, we lost two more this year." In '62, the class numbered 48 and now at the end of this year we are 31. Seventeen have fled that grasping hand which tried to keep those 48 as one.

The words burned in my heart as the picture faded. Small trickles of water ran down my cheeks and splashed into the well. How true those words were. Once upon a time we had been considered as one, and then from that day in June when we walked out the door we divided into 31 separate, strong-thinking people--now for the first time in their lives truly independent. Thinking back, I remember it should have been a happy time, but in our hearts we knew that we were individuals, each going his own way.

Yes, we'll always remember our Diamond Years!

Candy,  
Here's wishing you the  
very best of luck always  
to a very, very good  
friend of mine. I  
hope you get that  
certain guy because  
I want ya' to!!

Rem. all the  
fun we've  
had & the fun  
that has yet  
to come! Oh! oh!  
Oh 'yeah' I  
know it'll be  
hard but rem.  
me, too! (try hard)

Dear Candy,

you know I shouldn't be doing this because I'll never get my homework done (or your math either)! But I'll give you the honor of having this in your very own yearbook. First I'll say you're a wonderful person to know. We've had a lot of good (and bad) times and we're sure to have a lot more. I hope so. Second, I hope you get your math average up where it should be. I want you to understand that I do not play with Zippers! Ok?

you are a really great friend, Candy. I wish you every success and happiness in the years ahead of you. Just keep that smile and I'm sure you'll find whatever you're looking for. Best wishes, always,  
Janey

P.S. 2138 more days!!

Candy,

Best of luck always  
You deserve it! B-good  
You're a real nice girl and stay that way!  
You're a lot of fun and I hope you never forget  
the good times we've had together.  
We can have so many more "good" times together.  
A.F.A.  
Sandy Bliss Mel
